

BRENNAN MARINE HARBOR SERVICES

**Your trusted partner along
the inland waterways.**

MARINE PROFESSIONALS

SAFETY FIRST

Safety is at the forefront of every task we perform and every decision we make. We provide our crews with extensive training, the right equipment, and proper support to do their jobs. From our safety-based observation program to our culture of empowerment, we identify risks and take the required steps to mitigate those risks as we execute our work.

QUALITY

We pride ourselves on delivering high-quality service and Subchapter M compliant vessels to every one of our clients. Our crews bring deep experience, technical precision, and a commitment to quality that sets us apart. We respond quickly, communicate clearly, and work collaboratively to keep operations running smoothly.

PEOPLE

Our culture sets us apart. We prioritize safety, quality, and efficiency while making our company a great place to work. Through the US Coast Guard's National Apprentice Mate (Steersman) program and our own continuous internal training efforts, we train and develop our team. This ensures our crews consistently uphold the highest standards of integrity, transparency, and professionalism for our clients.

OUR SERVICES

Brennan Marine specializes in inland port management and harbor services, delivering safe and efficient switching, fleetting, short-haul towing, and dry-dock vessel repair. Since 1984, we have delivered reliable, high-quality services to carriers and terminals along the inland waterways. All of our vessels are Subchapter M compliant and inspected by the US Coast Guard, ensuring we meet the highest standards of safety, performance, and reliability.

OUR SPECIALTIES

- » Switching and Fleetting
- » Barge Cleaning
- » Shipyard Services
- » Short Haul Towing

HARBOR MANAGEMENT

Brennan Marine consistently delivers reliability and efficiency to its clients, ensuring seamless operations every day.

SWITCHING AND FLEETING

We leverage cutting-edge communication and vessel tracking technologies to **streamline harbor operations** and prevent terminal and carrier delays.

BARGE CLEANING

Brennan uses environmentally responsible methods to clean and dispose of leftover bulk cargo and can deploy water treatment systems to manage and filter water used during barge cleaning.

24-HOUR DISPATCH

Our state-of-the-art dispatch center is open 24 hours per day, year-round. We use a combination of Towworks™ software and our vessel tracking system to monitor barge activity and respond accordingly.

Brennan just GETS it. They understand inland terminal operations (loading/unloading product barges, fleetings, logistics, dock structures, barge haul systems, demurrage, etc.) and how downtime for a project or emergency repair can significantly impact the owner's business. They truly want to do what is best for the customer.

Logistics Company

SHIPYARD SERVICES

Brennan Marine’s floating dry dock, located near mile marker 697 on the Upper Mississippi River within the Port of La Crosse, WI, offers convenient and reliable vessel repair services. Our team of certified welders and skilled mechanics delivers **high-quality, cost-effective repairs**. Brennan’s dry dock spans 100 feet in length, 64 feet in width, and has a maximum capacity rating of 300 tons.

INSPECTION AND REPAIR SERVICES

- » Barge and vessel inspections - complete evaluations and repair estimates
- » Barge repairs - complete topside and hull restoration
- » Ship husbandry - Association of Diving Contractors International, Inc. (ADCI)-certified commercial divers come directly to you
- » Vessel repairs - structural, hull, drive systems, electrical, and hydraulic

SHORT HAUL TOWING

Sometimes, all you need is a short haul. Our dispatch center is ready to connect you with the resources to efficiently relocate barges over short distances. Brennan Marine operates its towing fleet with **24/7 responsiveness** throughout the navigational season, ensuring reliable service whenever you need it.

OUR MISSION

We create and execute innovative solutions to the world's most complex maritime, environmental, and infrastructure challenges.
